To meet our growing respiratory therapy services VitalAire is actively recruiting a highly energetic and motivated **full-time Clinical Consultant** for our Regina branch. The role, in this capacity, is to educate and provide quality healthcare services to our homecare and institutional clients.

ROLES AND RESPONSIBILITIES:

- Evaluates clients needs by conducting tests, interpreting test results and determining respiratory therapy treatment plans in consultation with physicians
- Conducts appointments and set-up of equipment for sleep diagnostic testing
- Assists with sales of CPAP devices & supplies for both scheduled appointments and walk-in clients; assists with maintenance of CPAP inventory/trial equipment for the branch
- Assists clients in accomplishing their treatment plan by administering respiratory therapy treatments, evaluating effects of respiratory therapy treatment plan and recommending adjustments and modifications if required
- Identifies any discrepancies with respiratory therapy/treatment and brings them to the attention of the physician
- Communicates the current list of respiratory therapy medications to the appropriate caregivers
- Maintains quality service by following company standards, policies and procedures and documenting customer complaints around quality of non-conforming products
- Records client care services by charting in client records, and making reports to physicians
- Contributes to a safe working environment by participating in safety activities, and working in a safe manner
- Contributes to the growth of VitalAire by liaising with medical professionals and providing demonstrations of products/services to prospective clients

- Maintains professional and technical knowledge by participating in professional societies and assisting in peer development through training programs
- Seeks to continuously improve the operation of the branch by evaluating processes and workflow, and participating in other quality improvement activities
- Facilitates payment by preparation of funding documents, and maintaining knowledge of funding systems
- Maintains client confidence and protects VitalAire operations by keeping information confidential

SKILLS AND KNOWLEDGE:

- Graduation from an accredited institution of Respiratory Therapy or Nursing and licensed to practice with the provincial governing body
- 1 - 2 years of experience as an RRT or Nurse (RN or LPN)
- Possesses a valid driver's license and clean criminal background check
- Excellent computer literacy with Microsoft applications such as Excel, Word and Outlook
- Strong organizational skills and keen attention to detail
- Effective communication and interpersonal skills with an ability to influence
- Demonstrates effective time-management skills and able to quickly make decisions in order to solve problems as required
- Ability to work independently without direct supervision and as part of a team
- Passion for patient care within your community and a willingness to work on-call when required

We participate in equal opportunity employment. Interested candidates with the necessary qualifications can send their resume, quoting "**Clinical Consultant - Regina**" in the subject line to be considered, to hr.vitalaire@airliquide.com.
